PETITION TO THE DIRECTOR UNDER 37 C.F.R. §1.181 TO REVIEW THE DECISION
ON REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT
AND NOTICE OF INTENT TO ISSUE CERTIFICATE OF CORRECTION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Introductory Comments

This petition to the Director pursuant to 37 C.F.R. §1.181 pertains to the Decision on Request for Reconsideration of Patent Term Adjustment and Notice of Intent to Issue Certificate of Correction mailed by the Office of Petitions on September 19, 2008. Patentees submit the following Statement of the Facts, Points to be Reviewed, Exhibits, Actions Requested, and Fee Payment Authorization along with this petition.

Statement of the Facts

- 1) On May 13, 2008, the above-identified application matured into U.S. Patent No. 7,371,872. The patent issued with a revised Patent Term Adjustment of three hundred thirty-one (331) days. Prior to issuance, the patent term adjustment for the above-identified patent was set at three hundred eighty-one (381) days.
- 2) A Request for Reconsideration of Patent Term Adjustment was timely filed on July 14, 2008, within two (2) months of the date the patent issued. See 37 C.F.R. §1.705(d).
- 3) Patentees specified in the Request for Reconsideration of Patent Term Adjustment

that there were no circumstances constituting a failure to engage in reasonable efforts to conclude processing or examination of the above-identified application as set forth in 37 C.F.R. §1.704.

- 4) Patentees requested reconsideration of patent term adjustment and reinstatement of all the reduced term for the above-identified patent. Reinstatement of all the reduced term would set the patent term adjustment for the above-identified patent at three hundred eighty-one (381) days.
- 5) The reduction of patent term adjustment involved forty-four (44) days associated with the filing of the “Communication” received in the USPTO on March 31, 2008 and six (6) days based upon the filing of the Certified Copy of the Foreign Priority Application on March 25, 2008.
- 6) The Office of Patent Legal Administration at the USPTO concluded that the reduction of forty-four (44) days associated with the filing of the “Communication” received in the USPTO on March 31, 2008 was not warranted. The reduction was removed.
- 7) The Office of Patent Legal Administration at the USPTO concluded that a reduction of the period of patent term adjustment was warranted as to the filing of the Certified Copy of the Foreign Priority Application.
- 8) The Office of Patent Legal Administration cited 37 C.F.R. §1.704(c)(10) regarding the reduction noted in Fact 7.
- 9) Regarding the reduction noted in Fact 7, the Office of Patent Legal Administration stated that “[i]n this instance, it is undisputed that patentees filed the Certified Copy of the Foreign Priority Application after the mailing of the notice of allowance. On April 4, 2008, the Office mailed a Priority Acknowledgement, acknowledging receipt of the priority papers. Thus, the period of adjustment should have been reduced by the lesser period of eleven (11) days (not 6 days), beginning on the date the Certified Copy of the Foreign Priority Application was filed, March 25, 2008, and ending on the mailing date of the Priority Acknowledgement, April 4, 2008. Accordingly, the period of reduction of six (6) days will be removed and the period of reduction of eleven (11) days will be entered in its place.”
- 10) Patentees agree that certified copies of the foreign priority applications (EP Priority Documents for Application No. 02380120.2 -1211 and Application No. 02380121.0 -1211) were supplied to the USPTO pursuant to the Notice of

Allowability, No. 3(c)(1) on March 25, 2008. However, this was the second time applicants had to supply copies of these documents, after having properly submitted the priority documents to the U.S. Receiving Office (USRO) at the time of filing the PCT application.

- 11) Thus, Patentees note that the USRO previously had been supplied with paper copies of these same documents on June 6, 2003. According to the treaty, the USRO should have then sent the priority documents to WIPO. For some reason, the USRO did not do so.
- 12) Patentees further note that pursuant to Paragraph 99 of the PCT Applicant's Guide – International Phase, “[p]rovided the applicant has either furnished a certified copy or requested transmittal of a copy and paid the necessary fee as described above, no designated Office may ask the applicant himself to furnish a certified copy of the earlier application.” In view of Fact 11 and Paragraph 99 of the PCT Applicant's Guide – International Phase, the USPTO could not ask Patentees to furnish the above-identified copies of the foreign priority applications.
- 13) Patentees submit that the International Bureau (IB) via a Notification Concerning Submission or Transmittal of Priority Document mailed on July 9, 2003 notified Patentees that the IB had not received the above-identified copies of the foreign priority applications as shown by the letters “NR” in the right-hand column entitled “Date of receipt of priority document” on the above-identified Notification.
- 14) According to the above-identified notification, “[t]he letters “NR” appearing in the right-hand column denote a priority document which was not received by the International Bureau or which the applicant did not request the receiving Office to prepare and transmit to the International Bureau, as provided by Rule 17.1 (a) or (b), respectively. In such a case, the attention of the applicant is directed to Rule 17.1 (c) which provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.”
- 15) In view of this notice, and because Patentees had indeed supplied the above-identified copies of the foreign priority applications with the original filing, it was not deemed necessary to provide yet another copy of these documents. This is particularly so, since in Patentees experience, delays in the USRO supplying priority documents to the IB were fairly common.

- 16) On February 15, 2007, the USPTO acknowledged a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f) as well as receipt of all certified copies of the priority documents in the National Stage application from the IB (PCT Rule 17.2(a)) in the Office Action Summary supplied with the Restriction Requirement. Hence, Patentees believed that the USPTO had indeed received the above-identified copies of the foreign priority applications.
- 17) Prior to the Notice of Allowability, Patentees had not been notified by the USPTO to supply the above-identified copies of the foreign priority applications.
- 18) Patentees supplied the above-identified copies of the foreign priority applications to the USPTO upon notification by the USPTO and prior to payment of the issue fee for the above-identified patent. As a courtesy to hasten prosecution, Patentees supplied a second copy of the above-identified foreign priority applications.
- 19) After receiving the Decision on Request for Reconsideration of Patent Term Adjustment and Notice of Intent to Issue Certificate of Correction, the International Application file for this patent was ordered at the USPTO. Upon receiving the file for the International Application on October 6, 2008, the above-identified copies of the foreign priority applications were still located therein. The documents had a note appended to them indicating that they should be forwarded. At that time, the above-identified copies of the foreign priority applications were apparently planned to be submitted to the IB.

Points to be Reviewed

Patentees respectfully request that the Director review, reconsider, and invoke supervisory authority upon the following points:

- 1) the period of reduction of eleven (11) days as provided in the Decision on Request for Reconsideration of Patent Term Adjustment and Notice of Intent to Issue Certificate of Correction and
- 2) the certificate of correction showing a revised Patent Term Adjustment of three hundred seventy (370) days.

Exhibits

Patentees supply the following exhibits in support of the Statement of Facts, particularly Facts 11, 13, 14, and 16:

- 1) a copy of the electronic PCT Request printed on June 5, 2003 and papers related to this

Request showing the paper copies of the above-identified foreign priority applications were included with the PCT application provided to the U.S. Receiving Office for the PCT,

- 2) a copy of the postcard stamped by the U.S. Receiving Office for the PCT showing receipt of the above-identified foreign priority applications on June 6, 2003,
- 3) a copy of the Notification Concerning Submission or Transmittal of Priority Document mailed on July 9, 2003, and
- 4) a copy of the Office Action Summary mailed on February 15, 2007 by the USPTO acknowledging a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f) as well as receipt of all certified copies of the priority documents in the National Stage application from the IB (PCT Rule 17.2(a)).

Actions Requested

Patentees respectfully request that the Director invoke the following actions:

- 1) removal of the period of reduction of eleven (11) days as provided in the Decision on Request for Reconsideration of Patent Term Adjustment and Notice of Intent to Issue Certificate of Correction and
- 2) revision of the certificate of correction such that the revised Patent Term Adjustment is set at three hundred eighty-one (381) days.

Fee Payment Authorization

Pursuant to 37 C.F.R. §1.181(d), Patentees hereby authorize payment of any fee required for this petition to the Director. Please charge any fees in connection with this petition to Deposit Account No. 05-0840.

Respectfully submitted,
